Job submission  
made easy

**Canon**  
CANON GROUP

Productive large  
format job  
submission software

The powerful Océ Publisher Select software helps you to create, print and manage sets of technical documents in an intuitive way. Maximizing convenience and efficiency for all your day-to-day large format printing. An interactive preview shows the effects of the settings that you select and represents the way your image will be printed. This is your guarantee for perfectly printed output.

### See what you print: effortless printing

Océ Publisher Select provides an interactive preview to represent the way your image will be printed. It shows the effects of the settings that you select on the printed output.

The thumbnail preview shows you the following information:

- The document in color or black & white
- The direction of the paper feed
- The cut location
- The clipped area
- The part of the image that will be placed on top of a folded package

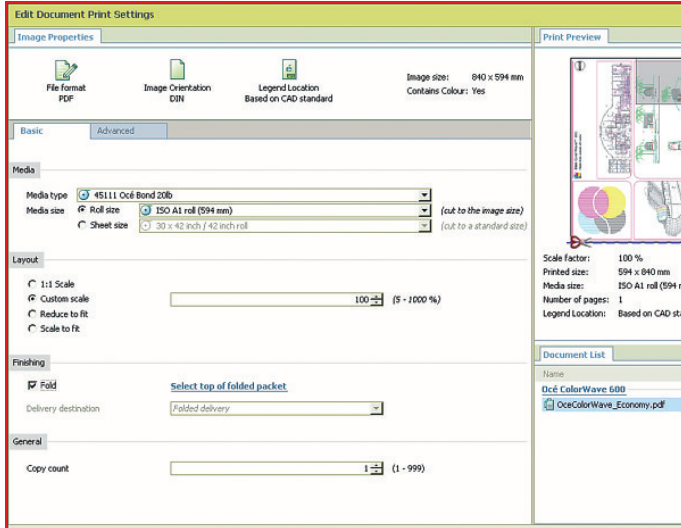

### Real-time information about job and device status

Once jobs have been submitted, Océ Publisher Select allows you to monitor the job status in the print queue. You can instantly see if an error has occurred or if a job is waiting for user intervention. There's no need to walk up to the printer to see if a specific job is ready because this is also clearly shown in the status indication.

Once your job is ready, it is moved to the history queue. If necessary, you can reprint your job from the history queue.

# Océ Publisher Select

## Productive large format job submission software

### Key features

- Fast processing and printing
- Thumbnail viewing
- Reliable device feedback
- Automatic legend detection for correct folding
- Banner page printing for easy job retrieval
- Use of templates
- Job reprint, import and export

## Benefits

- Convenient job creation by using templates with preset media and print settings
- Time-saving because of fast processing and printing of technical documents with different formats
- Media saving because the interactive preview functionality ensures first-time-right printing
- Maximizing uptime because of convenient and reliable device feedback and job status monitoring

# Beyond the Ordinary

**Printing for  
Professionals**

## **Creating global leadership in printing**

Canon and Océ have joined forces to create the global leader in the printing industry. For our customers, this combines Canon and Océ technology with the support of the Océ direct sales and service organizations. Look to the new Canon-Océ combination for:

- Enterprise printing in the office and corporate printroom
- Large format printing of technical documentation, signage, and display graphics
- Production printing for marketing service bureaus and graphic arts
- Business Services for document process outsourcing
