

## EF-M Lenses

Discover new shooting perspectives with a range of EF-M lenses for the EOS M5.

### EF-M18-150MM F/3.5-6.3 IS STM | Available Colours

Introducing the new lens made for the multidisciplinary photographer. This lens will allow you to cover a large range of shooting scenes from wide angle landscapes to telephoto shots of distant subjects. Plus, with a high zoom ratio of 8.3x you'll get high quality images across the entire focal range.

NEW

### EF-M22MM F/2.0 STM | Available Colours

This ultra-compact lens uses aspheric lens to produce images of high quality and resolution even at extreme close-ups. The lens also features a stepping motor that enables for silent, seamless Movie Servo AF.

### EF-M28MM F/3.5 MACRO IS STM

The world's first\* autofocus macro lens with built-in Macro Lite, it is able to illuminate even small objects without shadows. This lens also features a Super Macro mode with 1.2 magnification that instantly produces professional-looking macro photos.

\* Among interchangeable autofocus lenses for cameras (SLR and mirrorless cameras). As of May 2016, based on Canon's research.

### EF-M11-22MM F/4-5.6 IS STM

This wide-angle zoom lens has the shortest focusing distance in the EOS M lenses at 0.15m, and features an Image Stabilizer producing sharp photos equivalent of a shutter speed that is 3 stops faster.

### EF-M15-45MM F/3.5-6.3 IS STM | Available Colours

This compact, versatile zoom lens combines both wide-angle and telephoto zoom properties, making it ideal for taking both landscapes and close-up photos.

### EF-M18-55MM F/3.5-5.6 IS STM

Ideal for a shallow depth-of-field photos with bokeh effects, this zoom lens also features an Image Stabilizer and Dynamic IS that consistently produces high quality photos and videos.

### EF-M55-200MM F/4.5-6.3 IS STM | Available Colours

Compact and portable, this lens is the longest telephoto zoom lens in the EF-M lens range, making it particularly ideal for taking photos of distant subjects.

## EOS System Accessories

### MOUNT ADAPTER EF-EOS M

The adaptor retains EF/EF-S lenses function without compromising image quality, IS effectiveness, and AF speeds. When paired with the EOS M5, it is able to link with over 70 other EF/ EF-S lenses for more perspective choices.

## EOS M5

## Specifications

Imaging Processor	DIGIC 7	
Image Sensor		
Type	APS-C CMOS Sensor	
Image Sensor Size	Approx. 22.3 x 14.9mm	
Effective Pixels	Approx. 24.2 MP	
Lens Mount	EF-M (EF and EF-S lenses compatible via mount adapter EF-EOS M)	
LCD Monitor		
Type	3.2 type TFT colour liquid crystal	
Effective Pixels (Aspect Ratio)	Approx. 1.62 million dots (3:2)	
Features	Tilt up: approx. 85°, down: approx. 180° Touch panel	
Focus		
AF Method	Face+Tracking AF, 1-point AF	
AF Points	49 points	
Focus Operation	One-Shot AF, Servo AF	
EVF		
Screen Size	Approx. 0.39-type	
Pixels	Approx. 2.36 million dots OLED	
Metering System		
ISO Speed	AUTO, ISO 100 - ISO 25600	
Shutter Speed	1/4000 to 30sec, Bulb X-sync at 1/200sec	
Flash		
Built-in Flash	Yes	
Modes	Auto, On, Slow, Syncro, Off	
External Flash	E-TTL II autoflash, Flash functions settable with the camera	
Shooting Specifications		
Continuous Shooting (Approx.)	9.0 fps (AF fixed) 7.0 fps (AF tracking)	
Still Images: 3:2	L (Large):	Approx. 24.00 megapixels (6000 x 4000)
	M (Medium):	Approx. 10.80 megapixels (3984 x 2956)
	S1 (Small 1):	Approx. 5.90 megapixels (2976 x 1984)
	S2 (Small 2):	Approx. 3.80 megapixels (2400 x 1600)
	RAW:	Approx. 24.00 megapixels (6000 x 4000)
Still Images: Aspect Ratios	3:2, 4:3, 16:9, 1:1	
Movie		
Movie Resolution	Full HD (1920 x 1080) HD (1280 x 720) VGA (640 x 480)	
Dimensions	115.6 mm (Width) x 89.2 mm (Height) x 60.6mm (Depth)	
Weight (Including the battery pack and memory card)	Approx. 427g	
Network	Wi-Fi / NFC / Bluetooth	
Optional Accessories	Strap EM-300DB (included, and sold separately) Body Jacket EH29-CJ (BW/BK) Neck Strap EM-E2(BK) Neck Strap EM-E2(BW)	

Available options:

EOS M5 (Body only)

EOS M5 Kit  
(EF-M15-45MM IS STM)

EOS M5 Kit  
(EF-M18-150MM IS STM)

# EOS M5

# REMIX YOUR PHOTOGRAPHY

6504W382

# Enhance your Photography

The EOS M5 delivers photos and videos with remarkable image quality captured with professional clarity and focus. Packed with unique features, it will change your perspective of what a mirrorless camera can be.

## Dual Pixel CMOS AF HIGH-SPEED AUTOFOCUSING (Dual Pixel CMOS AF)

Canon's original Dual Pixel CMOS AF technology is included for the first time ever in the EOS M series providing smooth and quick AF in both still and video shooting. With 24.2 million phase-difference sensors in place, phase-difference AF is possible over 80% x 80% area of the focal plane's entire surface, and users will have more flexibility in framing creative compositions and a variety of scenes.

## DIGIC 7 24.2 MEGAPIXEL CMOS SENSOR HIGH IMAGE QUALITY

In addition to the DIGIC 7 image processor, the EOS M5 has the 24.2 Megapixel APS-C sized CMOS sensor which helps reduce noise while shooting at high ISO speeds. This ensures every image stays crisp and clear.

## OLED EVF 2,360,000 DOTS EVF + TOUCH & DRAG AF

For the first time in a Canon mirrorless camera, there's a built-in 2.36-million-dot electronic viewfinder (EVF). The EVF enables you to look through the viewfinder, while using the touch and drag function on the screen panel to focus on your subject. It's that simple.

## RAW JPEG In-Camera RAW processing IN-CAM RAW CONVERSION

Now editing photos on the go has never been easier. In-Camera RAW conversion is included for the first time on an EOS M series. While traveling, you can shoot images in RAW and edit, then convert to JPEG format. It also offers correctional functions for peripheral illumination, chromatic aberration and diffractive blur so that you can share edited images on social media right away.

Before adjustment

After adjustment

## COMBINATION IS MOVIE SHOOTING

The EOS M5 also has an improved Movie shooting mode. By combining a supported IS lens with in-camera digital image stabilization you can capture videos even on the move. Hence, the in-camera stabilization function lets you achieve steady shots while shooting movies.

## WI-FI / NFC BLUETOOTH WIFI/NFC/BLUETOOTH

With the Wifi/NFC feature, you can easily transfer or share photos wherever you are, via Canon image gateway or the camera connect app.

The new Bluetooth low energy technology lets you stay connected to your smart devices. You can also use your phone as a remote shutter button when shooting images or movies. Or even as a remote controller when browsing through images, to zoom in and out while viewing them on TV.

## DESIGN

Compact and light-weight, the EOS M5 is a perfect blend of sophistication and performance all in one. Make the EOS M5 look even more stylish by accessorising it with a premium leather strap and camera jacket.
