## MAINTAIN PRODUCTIVITY

With quick first print-out times and automatic duplex printing, keep your workflow smooth and efficient.

## WIFI CONNECTIVITY

Built-in Wi-Fi enables smooth and efficient connectivity across devices, allowing flexible print sharing within any work environment.

## EASY MAINTENANCE

All-in-one toner cartridges simplify printer maintenance. High-yield cartridge options reduce the need for frequent replacements - saving time, effort and lowering cost per page.

## ENHANCED DATA PROTECTION

TLS 1.3 and WPA3 helps to safeguard against unauthorised access and defend system integrity from sniffing, spoofing, and tampering.

**Specifications are subject to change without notice.**

*1 Print speed is measured based on internal testing using A4/Letter size paper printed with 100% print ratio to original on one-sided paper. Internal testing involved continuously printing the same one page of content on plain paper. Print speed may vary depending on paper type, paper size or paper feeding direction.

*2 First print out time is measured based on internal test procedure and may vary. When the printer is in the ready state, this is the time from receiving the print instruction from the controller to printing one sheet and finishing paper ejection.

*3 The latest drivers for Windows, Windows Server, Mac OS and Linux can be downloaded from the https://asia.canon/en/support website when available.

*4 Monthly Duty Cycle value provides a means of comparison for product robustness in relation to other Canon laser printer devices, and does not refer to actual maximum image output per month.

*5 Excluding toner cartridge.

*6 Toner cartridge yield is in accordance with ISO/IEC 19798.
