High-Performance A3+ Photo Printer Designed for Photographers

A3⁺

8 COLOURS DYE-BASED INK

ChromaLife100⁺

3.0"(7.5cm) LCD

CONNECTIVITY

DIRECT WIRELESS CONNECTION

Transform your creative vision into stunning reality with the PIXMA PRO-200S. This versatile printer utilises an 8-colour dye ink system, allowing for a wider colour gamut and vibrant prints that capture the essence of your images. With the capability to print up to A3+ size, the PIXMA PRO-200S is ideal for producing stunning photographs and art reproductions.

VIVID COLOUR REPRODUCTION

ChromaLife 100⁺

The ChromaLife100+ ink system delivers enhanced colour accuracy and print longevity, with deeper blacks, richer reds, and an expanded colour gamut that makes every photo stand out vibrantly. This advanced formulation keeps your prints vivid and fade-resistant for years to come.

FEATURES

VERSATILE PAPER HANDLING FOR CREATIVE PRINTING

The PRO-200S supports your creative vision with options to customize border margins for perfect framing, support for panorama-sized paper (210 x 594 mm), and the ability to print on long paper lengths up to 990.6 mm.
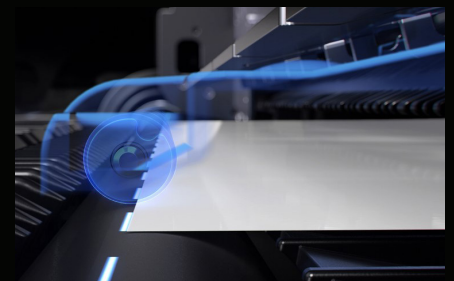

3.0" COLOUR LCD

A 3.0" colour LCD display panel enables easy navigation of printer functions, offerring a quick overview of ink levels, making operation smooth and simple.

MOBILE AND CLOUD PRINTING

Efficiently print from smartphones, tablets, laptops and cloud storage with the Canon PRINT and Easy-PhotoPrint Editor apps.

RELIABLE PAPER FEEDING

An automatic skew correction function prevents mistakes in paper alignment and helps reduce paper wastage.

STREAMLINE YOUR PRINTING PROCESSES

Smoothen your workflows with Canon's complimentary software applications designed to enhance workflow efficiency.
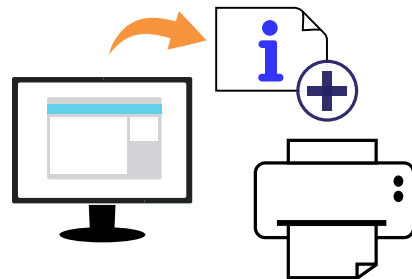

PROFESSIONAL PRINT & LAYOUT

Simplify your printing process with the Professional Print & Layout feature, offering a range of useful functions to help you to effortlessly create stunning, professional-quality prints.

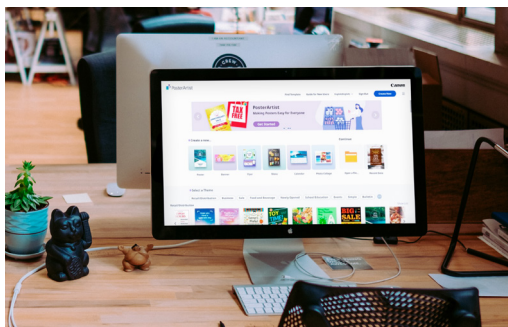

MEDIA CONFIGURATION TOOL

The Media Configuration Tool enables users to effortlessly register various media types with their printers and customise media display preferences for a seamless printing experience.

POSTERARTIST WEB

Experiment with bold colours, attractive imagery with minimal efforts. Canon PosterArtist Web application offers quick and easy access to hundreds of professionally designed templates, from posters, banners and flyers to menus, party invites, calendars, certificates and more.

Specifications are subject to change without notice.

*1 Ink droplets can be placed with a pitch of 1/4800 inch at minimum.
*2 Photo print speed is based on the default setting using ISO/JIS-SCID N2 and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.
*3 For more information on maximum paper handling capacity and media types, please refer to https://asia.canon.
*4 Operation can only be guaranteed on a PC with a pre-installed Windows 7 or later.

*5 Page yields may vary depending on content coverage, print settings, temperature, humidity, and frequency of printing. Please refer to the paper package or the instruction manual supplied with the paper for temperature and humidity conditions of the photo printing papers.
*6 Declared yield value is the estimated value based on Canon individual test method using ISO/JIS-SCID N2 test file at 11 x 14" continuously on A3+, Photo Paper Pro Platinum (PT-101), with the default settings of testing paper using Windows 10 printer driver and Photoshop CC.
*7 Declared yield value is in accordance with ISO/IEC 29102, using the ISO/IEC 29103 chart. Values obtained by continuous printing.
