Business Can Be Simple

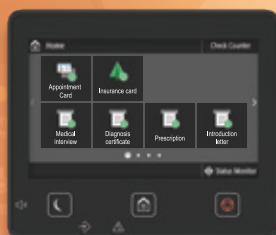

Canon's Application Library offers a suite of customisable functions, designed to improve workflow efficiency and simplify routine tasks without incurring additional cost.

Enjoy greater operational accuracy, better user experience, and more workplace productivity by applying these 3 simple steps:

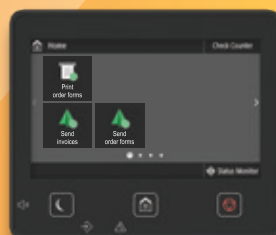

- Identify frequently used tasks in the current operation.
- Select suitable application from the library and customise it with your preferred settings.
- Perform routine tasks with one touch button operation.

Personalise the operational panel home screen by rearranging the customised application buttons in order of choice.

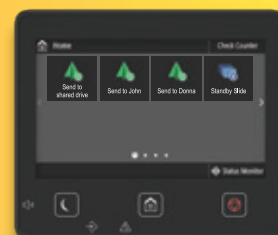

Customise Home Screen

Increase Productivity with Customised Touch Buttons

Print Template

Print frequently used forms with convenience.

- ✓ Print only when you need it.
- ✓ Reduce paper wastage by eliminating pre-printed forms.

Standby Slide

Display a series of images or running text on the LCD screen of the operational panel.

- ✓ Share important information or announcement.
- ✓ Personalise the device with corporate branding or favourite images.

Scan to Preset Destination

Scan and send documents to a pre-registered destination.

- ✓ Simplify scanning workflow into one-touch operation.

Copy (Eco)

Perform a copy with Eco mode.

- ✓ Minimise paper consumption with 2-sided copying and combining multiple pages into 1.

Copy (BleedReduce)

Minimise bleed-through effect when making a duplicate copy.

- ✓ Obtain a quality copy even when copying from a thin media original.

ID Card Copy (Simple)

Copy an ID card using one-step operation.

- ✓ Copy the front and back of an ID card onto a single sided page.
